

InnoChem

Smart Solutions, Strong Foundations

COMPANY OVERVIEW

We are manufacturers and supplier of high-performance construction chemicals, strategically located in the industrial corridor of Vapi GIDC, Gujarat - at the heart of India's industrial evolution.

With 20+ years of experience, we make and supply strong, reliable, and long-lasting products for all types of construction projects. From waterproofing to tile fixing, from sealants to flooring - we offer smart solutions that help buildings last longer and stay safer. We work closely with engineers, builders, and contractors to solve real construction problems.

OUR JOURNEY

InnoChem is a new name, but our hands have been working in the construction chemical field for over 20 years. We've stood on dusty sites, We walked across leaking terraces, we have heard the frustrations of contractors and the worries of homeowners. That is where our journey truly began-not in a boardroom, but on the ground, solving real problems with real people.

InnoChem was born out of that purpose — to offer products we believe in, and service people can rely on. We may be a young brand, but we carry with us the strength of decades of hands-on work and the desire to do things the right way.

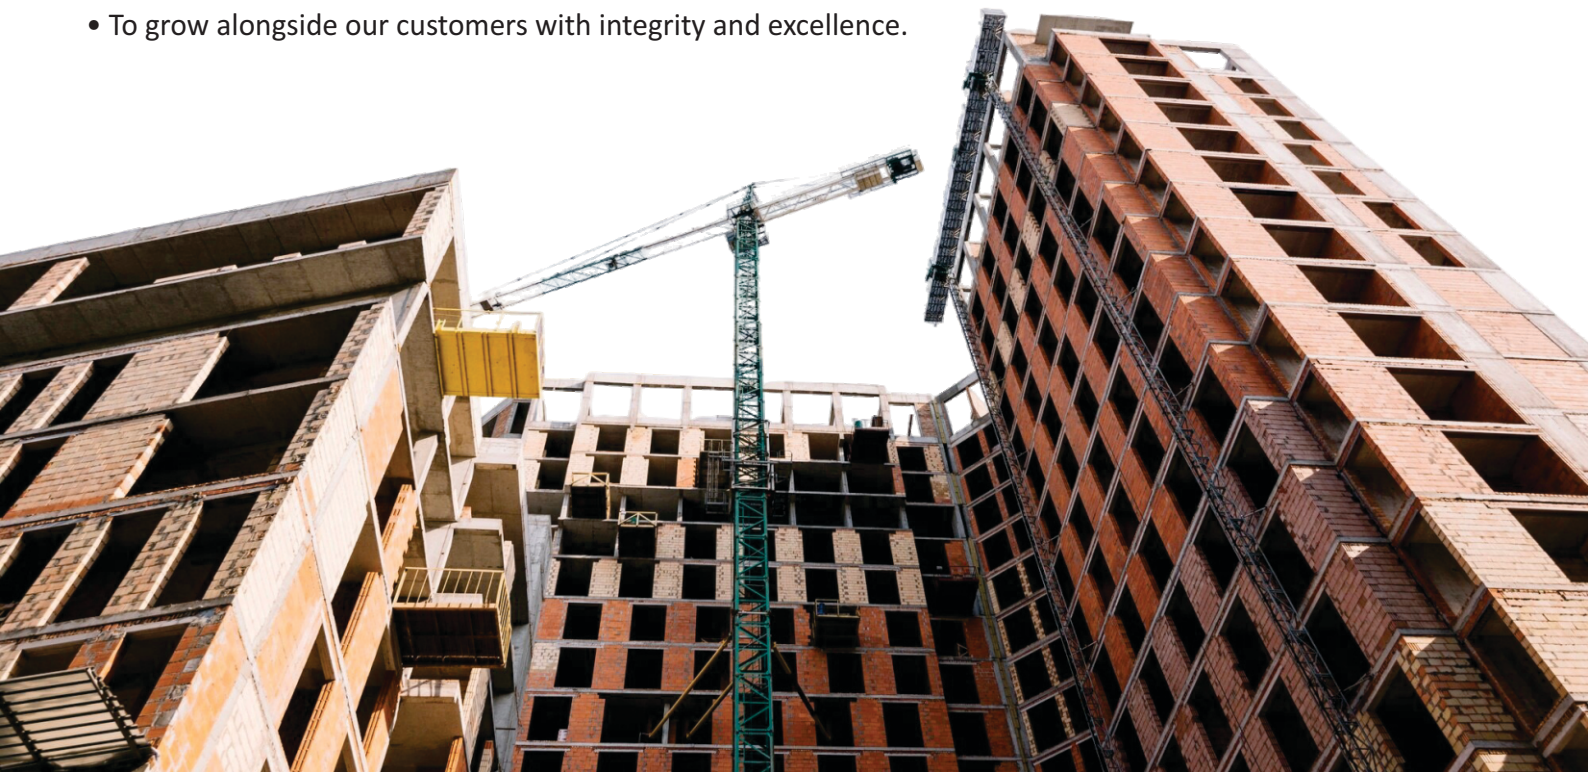

OUR VISION

To redefine standards in the construction chemical industry through innovation, quality, and scientific excellence, empowering the creation of future-ready, sustainable infrastructure across India.

We envision a built environment driven by durability, safety, and environmental responsibility.

OUR MISSION

- To produce high-performance construction chemicals that meet evolving industry needs.
- To empower customers through technical support, product innovation, and timely service.
- To continually invest in research, training, and product development.
- To contribute to safe, strong, and sustainable construction practices.
- To grow alongside our customers with integrity and excellence.

InnoChem

Smart Solutions, Strong Foundations

PRODUCTS WE OFFER

- 1) **InnoChem Admix** - Admixture improves workability, bonding, and durability of cement mixes. Ideal for waterproofing and repair jobs.
- 2) **InnoChem 2K** - Two-component, flexible waterproof coating for terraces, tanks, and bathrooms. Strong protection against water seepage.
- 3) **InnoChem Block Joint Mortar** - Ready-to-use mortar for laying AAC/CLC blocks. Offers high strength, smooth finish, and faster construction.
- 4) **InnoChem Ready Mix Plaster** - Pre-mixed cement plaster for internal and external walls. Saves time, reduces wastage, and ensures uniform quality.
- 5) **InnoChem Repair Mortar** - High-strength mortar for patchwork and structural repairs. Bonds well with old concrete and prevents cracks.
- 6) **InnoChem Rust Cleaner** - Powerful rust remover for steel rebars and metal surfaces. Helps extend the life of reinforcement before repair.
- 7) **InnoChem SBR Latex** - Multi-purpose bonding agent and waterproofing additive. Enhances adhesion, strength, and flexibility of cement mixes.
- 8) **InnoChem Super LWS** - Liquid waterproofing solution for concrete and plaster. Reduces water absorption and increases durability.
- 9) **InnoChem Tile Fix 01**
Standard grade tile adhesive for ceramic tiles on floors. Easy to apply and provides a strong bond.
- 10) **InnoChem Tile Fix 02** - High-performance tile adhesive for walls and vitrified tiles. Suitable for bathrooms and wet areas.
- 11) **InnoChem Tile Fix 03**
Premium-grade adhesive for heavy-duty applications like granite, marble, and large format tiles.
- 12) **Inno Grout Plus** - Inno Grout Plus is a high-performance, cementitious grout that has high strength. It is specifically designed for precision grouting applications where load-bearing capacity is critical. This product is engineered to provide reliable and durable performance in demanding environments.

PLAY AREA & FLOORING SOLUTIONS

We also design safe and colorful play areas for kids. Our solutions include:

- Soft and strong EPDM rubber flooring
- Fun play equipment like swings, slides, and jungle gyms
- Flooring for gyms, homes, and indoor spaces — rubber or wooden

WHY INNOCHEM ?

- 20+ Years of experience.
- Full product range under one roof.
- Strong R&D and quality checks.
- On-site technical support.
- Pan-India delivery and service.

SECTORS WE SERVE

At InnoChem, our products are designed to meet the diverse needs of India's growing infrastructure. We proudly serve the following sectors:

RESIDENTIAL & COMMERCIAL BUILDINGS

- Tile fixing, waterproofing, plastering, and repair solutions.
- Ideal for homes, apartments, office spaces, and complexes.

InnoChem
Smart Solutions, Strong Foundations

INDUSTRIAL FACILITIES & WAREHOUSING

- Durable flooring, sealants, and block joint mortars.
- Repair and protection systems for factory floors and warehouses.

HOSPITALS & HEALTHCARE BUILDINGS

- Hygienic, Easy-to-Clean tile Systems.
- Waterproofing and rubber flooring for wet and sensitive areas

EDUCATIONAL INSTITUTES & SCHOOLS

- Child-Safe EPDM play areas.
- Flooring and construction chemicals for classrooms, labs, and hostels.

HOTELS, MALLS & RETAIL PROJECTS

- High-performance adhesives for heavy footfall zones.
- Sleek, crack-free finishes with quality grouts and sealants.

ROADS, BRIDGES & HIGHWAYS

- Repair mortars for expansion joints and concrete surfaces.
- Admixtures and sealants for long-lasting durability.

RAILWAY STATIONS & METRO PROJECTS

- Platform tile adhesives and waterproofing.
- Repair systems for tunnels, underpasses, and structural concrete.

AIRPORTS & AVIATION PROJECTS

- Heavy-duty tile adhesives and flexible sealants.
- Admixtures for high-strength concrete applications.

WATER TANKS, DAMS & STPS

- Waterproof coatings for tanks, reservoirs, and sewage plants.
- SBR Latex and admixtures for leak-proof construction.

TEMPLES, RELIGIOUS & HERITAGE SITES

- Specialty mortars and adhesives for stone, marble, and granite.
- Eco-friendly products for restoration and repair.

GOVERNMENT & SMART CITY PROJECTS

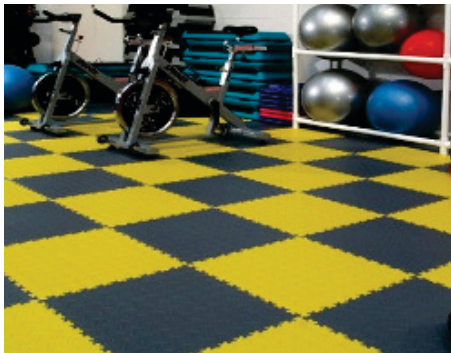

- Multi-use construction solutions for public infrastructure.
- Fast-application, durable products for tight deadlines.

PRECAST & MODULAR CONSTRUCTION

- Bonding agents, admixtures, and rust cleaners for prefab units.
- Block jointing and finishing solutions for modular builds.

CHILDREN'S PLAY ZONES & PARKS

- EPDM rubber flooring.
- Swings, slides, jungle gyms, and multi-purpose floorings for safety and fun.
